The CHAIRMAN said this was the first annual meeting of the new Limited Company; and as suite required one gunboat and three steam the previous meeting—the last of the old Company—had been held in January, the report covered a period of only three and a quarter months. This period, however, had been of very considerable importance to the interests of the Company because during this period for the first time in the history of the Company they had received returns for sugar sold. The out-turn had begun in the first week in January, and the returns so far had greatly exceeded the estimates made just refore the out-turn commenced. They estimated that they would turn out about \$55,000 worth of ingar during the present year; and up to the present time, assuming that the out-turn during the present month had been as good as during April—which they had no reason to doubt, though the returns had not yet come inthey had sold about \$27,000 worth already, and that of a member of the Imperial family.—Daily the Manager told them he expected to sell sbout \$50,000 worth during the first six months of this year. Then the mill would rest for three months, and during the last three months, the Manager believed they would make an even better average; but even at the same rate it would give a total for the year of \$75,000, against an estimate of \$55,000, showing an improvement of ling from a cold which necessitated our Foo going about 35 per cent. Active preparations are going on for the tour of the Seventh Prince, and an official list has Chinese Imperial Loan of 1884 C-7 per cen been issued of over 200 persons who are to accompany H.I.H. Probably they will not all embark in the Prince's tender, or with the addition of the Viceroy's suite, they will press hard on the saloon accommodation of the Husan. It appears that some of the foreign ministers

are desirous of attaching themselves to the Prince's following in order to get a glimpse of his face. The French Minister has notified that he wishes to entertain the Prince at Chefoo and that he is getting up the Admiral in the Turenne for that purpose. This makes H.E. very anxious to clear up his business in Korea in order to be back in time to catch the Prince. The German Minister has also intimated through his usual sub-official channels that he will proceed to Tientsin for the express purpose of paying his respects to the Prince, who may be induced to receive there the homage which stiquette for-bids him to receive in Peking. Whether any of the other Ministers are going to join in the Prince-hunting expedition is uncertain. N.C. Daily News Correspondent.
